RISHI THAKUR

JUNIOR SAP IBP CONSULTANT

Bengaluru, India • +91 8109830219 • rishi_th219@proton.me • rishi-th219.github.io/portfolio
LinkedIn • GitHub

PROFESSIONAL SUMMARY

Analytical Consultant with a strong computer science background (M.Tech CSE, GATE CS qualified) and Celonis Process Mining certification. Experienced in supply chain data management, inventory analytics (ABC/VED), and master data reconciliation across enterprise databases. Skilled in demand forecasting principles, scenario testing, and preparing functional specifications for cross-functional stakeholders.

SKILLS

- **Supply Chain & Enterprise Systems:** SAP IBP Concepts (Demand, S&OP, Inventory), Supply Chain Planning, Demand Forecasting, Inventory Analytics (ABC/VED), Process Mining (Celonis)
- **Master Data & Database Systems:** Master & Transactional Data Management, Data Validation & Cleansing, Advanced SQL (MySQL, MariaDB, OracleDB) — Joins, CTEs, Window Functions, Schema Integration
- **Analytics, Modeling & Testing:** Python (Pandas, NumPy, Scikit-learn), Power BI (DAX), ETL Pipelines, Unit Testing, Scenario Testing, Defect Logging, Advanced Excel
- **Communication & Spoken Skills:** Functional Specifications, User Manuals & Training Decks, Cross-Functional Supply Chain Alignment, Stakeholder Walkthroughs

WORK EXPERIENCE

Chhattisgarh Infotech Promotion Society (CHiPS) | Raipur, India | 06/2025 – 03/2026
Supply Chain & Data Analytics Intern • Dept. of Health & Family Welfare, Govt. Of Chhattisgarh

- Conducted master data validation, cleansing, and ETL integration across **33 districts** and **5 sub-departments**, including state procurement body CGMSCL.
- Engineered automated **SQL data reconciliation pipelines** mapping biometric and transactional records to State Treasury payroll with **100% data fidelity**.
- Developed multi-criteria **inventory analytics (ABC/VED analysis)** and a **3-tier risk classification model** tracking resource allocations across statewide facilities.
- Reconciled disparate relational database schemas across MariaDB, OracleDB, and Next-Gen e-Hospital systems, eliminating transaction mismatches.
- Executed scenario and integration testing scripts, logging defects and authoring **functional documentation and SOPs** for leadership and technical teams.

KEY PROJECTS

Proactive 5G Handover Prediction (Diffusion Models) • *M.Tech Thesis — Demand Forecasting & Telemetry Modeling*
Technologies: Python, PyTorch, Diffusion Models (DDPM/DDIM), GRU, Scikit-learn, Random Forest, SMOTE, Tomek Links

- Developed an advanced predictive forecasting engine pairing a **GRU encoder** with a **Diffusion Model (DDPM/DDIM)** simulating signal paths from multivariate **spatio-temporal** telemetry.
- Addressed extreme **98%/2% class imbalance** using a hybrid **SMOTE + Tomek Links** resampling pipeline, training a Random Forest policy achieving a **97.64% F1-score**.

AI vs. Human Text Classification Pipeline • *Applied NLP & Pattern Classification*
Technologies: Python, BERT, XGBoost, Bi-LSTM, Transformers, 1D-CNN, Scikit-learn

- Engineered dual classification architectures: extracted 768-dim dense **BERT embeddings** with **XGBoost**, and constructed a deep hybrid Bi-LSTM/Transformer model.
- Applied stratified sampling (80/20), text normalization (NFKD), and early stopping, achieving **99% Precision** and **98% Recall** in synthetic text detection.

EDUCATION

M.Tech in Computer Science & Engineering | IIIT Naya Raipur (CGPA: 7.90) | 08/2024 – 07/2026
B.Tech in Computer Science | Amity University Chhattisgarh (CGPA: 7.71) | 08/2019 – 06/2023

CERTIFICATIONS & KEY QUALIFICATIONS

- **Celonis Process Mining Foundations** (Credly)
- **Qualified GATE Computer Science (CS)**, 2024
- **Microsoft Power BI** (Udemy)
- **SQL & Database Design** (Udemy)
- **Python for Data Science & AI** (Coursera)
- **IELTS Academic:** 7.5 Band Score
