PROFESSIONAL SUMMARY

Results-oriented Data Analyst and Power BI Developer experienced in designing end-to-end BI solutions, dimensional models, and SQL/ETL pipelines. Proven track record architecting enterprise Power BI dashboards across 33 districts, establishing DAX drill-down hierarchies, and reconciling multi-source datasets across MariaDB and OracleDB. Skilled in inventory analytics (ABC/VED/SDE) and reporting.

TECHNICAL SKILLS

- **Business Intelligence & Reporting:** Microsoft Power BI (Desktop & Service), DAX (Time Intelligence, Iterators, CALCULATE), Power Query, Executive Dashboards, Drill-Through, KPI Cards, Row-Level Security (RLS)
- **Database & SQL Development:** Advanced SQL (Complex Joins, Window Functions, CTEs, Subqueries), MySQL, MariaDB, OracleDB, Star Schema, Snowflake Schema, Query Optimization, View Creation
- **AI Tools & Data Modeling:** Claude Code, Google Antigravity (AI-Assisted DAX & M Code Generation), Schema Reconciliation, Multi-Source ETL, Inventory Analytics (ABC/VED/SDE), Python, Excel

WORK EXPERIENCE

Chhattisgarh Infotech Promotion Society (CHiPS) | Raipur, India | 06/2025 – 03/2026

Data Analyst & Power BI Developer Intern • Dept. of Health & Family Welfare, Govt. Of Chhattisgarh

- Designed and deployed an enterprise 6-page **Power BI dashboard** tracking attendance metrics across **33 districts**, establishing a **4-tier drill-down hierarchy** (District → Facility → Designation → Individual).
- Authored complex **DAX measures** (Time-Intelligence, CALCULATE, Dynamic Filtering) computing key KPIs including average working hours, staff counts, and absenteeism rates.
- Engineered robust **SQL/ETL pipelines** in MariaDB to clean and transform raw biometric attendance punch records, eliminating duplicate designations and naming discrepancies.
- Developed an automated pipeline linking biometric IDs to State Treasury payroll codes, uncovering compliance leakage across bonded medical officers.
- Integrated multi-departmental data streams (AEBAS biometric logs, State Treasury payroll, Next-Gen e-Hospital records) into a dimensional model with **100% data fidelity**.

KEY PROJECTS

Proactive Risk Prediction & AI Decision Engine • ***Predictive Analytics & Telemetry***

Technologies: Python, PyTorch, Scikit-learn, Random Forest, SMOTE, Power BI

- Built a predictive forecasting pipeline analyzing multivariate **spatio-temporal** telemetry data, addressing severe **98%/2% class imbalance** via **SMOTE + Tomek Links**.
- Trained an ensemble **Random Forest classifier** on 50 simulated diffusion paths, achieving a **97.64% F1-score** in predicting connection failures and presenting insights.

AI vs. Human Text Classification Pipeline • ***Applied NLP & Analytics***

Technologies: Python, BERT, XGBoost, Transformers, Power BI Dashboards

- Engineered dual NLP evaluation pipelines extracting 768-dim **BERT contextual embeddings** paired with **XGBoost** and deep neural network baselines.
- Attained **99% Precision** and **98% Recall** on synthetic text detection; compiled comprehensive model performance metrics and confusion matrices into interactive analytical reports.

EDUCATION

M.Tech in Computer Science & Engineering | IIIT Naya Raipur (CGPA: 7.90) | 08/2024 – 07/2026

B.Tech in Computer Science | Amity University Chhattisgarh (CGPA: 7.71) | 08/2019 – 06/2023

CERTIFICATIONS & KEY QUALIFICATIONS

- **Microsoft Power BI Desktop for Business Intelligence** (Udemy)
- **SQL for Beginners & Database Design** (Udemy)
- **Celonis Foundations** & **Process Management Foundations** (Credly)
- **Python for Data Science, AI & Development** (Coursera)
- **Qualified GATE Computer Science (CS)**, 2024
- **IELTS Academic:** 7.5 Band Score
