PROFESSIONAL SUMMARY

Analytical Computer Science postgraduate (M.Tech CSE, GATE CS qualified, IELTS 7.5 Band) with proven experience delivering client-focused data and technology solutions. Demonstrated success partnering with leadership to decompose operational bottlenecks into structured frameworks. Skilled in advanced SQL, relational modeling, Celonis Process Mining, Power BI, and Python in agile consulting.

TECHNICAL SKILLS

- **Consulting Methodologies & Analytics:** Business Problem Decomposition, Process Mining (Celonis), Root Cause Analysis, Defaulter Risk Modeling, Requirement Gathering, Client Advisory
- **Data & Database Technologies:** Advanced SQL (Multi-Table Joins, CTEs, Window Functions), MySQL, MariaDB, OracleDB, Dimensional Modeling (Star Schema), Schema Reconciliation, Multi-Source ETL Workflows
- **BI, AI Tools & Prototyping:** Microsoft Power BI (DAX, Power Query), Advanced Excel, Claude Code, Google Antigravity (AI-Assisted Prototyping), Python (Pandas, Scikit-learn), Client Presentations

WORK EXPERIENCE

Chhattisgarh Infotech Promotion Society (CHiPS) | Raipur, India | 06/2025 – 03/2026

Technology Consulting Intern — Data & Analytics • Dept. of Health & Family Welfare, Govt. Of Chhattisgarh

- Partnered directly with Department Secretary and leadership to deconstruct statewide operational bottlenecks across **33 districts** into **3 structured initiatives**.
- Conducted diagnostic research and process mapping across government departments, designing a **3-tier defaulter risk model** tracking financial leakage and compliance.
- Engineered automated **SQL/ETL data pipelines** (CTEs, window functions) bridging biometric logs with State Treasury payroll records, resolving multi-source schema discrepancies.
- Collaborated with National Informatics Centre (NIC) data engineers to reconcile disparate, modular backend database schemas into a unified analytical reporting repository.
- Architected an executive 6-page interactive **Power BI reporting suite** featuring **4-tier drill-down hierarchies** (District → Facility → Designation → Individual) for stakeholders.

KEY PROJECTS

Proactive Risk Prediction & AI Decision Engine • ***Predictive Analytics & Process Optimization***

Technologies: Python, PyTorch, Scikit-learn, Random Forest, SMOTE, Process Modeling

- Architected an automated predictive decision model forecasting service failures from complex multivariate **spatio-temporal** telemetry, replacing reactive bottlenecks with proactive automated workflows.
- Tackled severe **98%/2% class imbalance** via **SMOTE + Tomek Links** and integrated a two-stage Random Forest classifier with custom loss, attaining a **97.64% F1-score**.

AI vs. Human Content Classification System • ***Applied Analytics & NLP***

Technologies: Python, BERT, XGBoost, Transformers, Scikit-learn

- Engineered dual NLP evaluation pipelines evaluating **BERT contextual embeddings** paired with **XGBoost** against deep neural network architectures for automated verification.
- Achieved **99% Precision** and **98% Recall** on synthetic content detection; compiled findings and performance benchmarks into clear stakeholder presentations.

EDUCATION

M.Tech in Computer Science & Engineering | IIIT Naya Raipur (CGPA: 7.90) | 08/2024 – 07/2026

B.Tech in Computer Science | Amity University Chhattisgarh (CGPA: 7.71) | 08/2019 – 06/2023

CERTIFICATIONS & KEY QUALIFICATIONS

- **Qualified GATE Computer Science (CS)**, 2024
- **Celonis Foundations** & **Process Management Foundations** (Credly)
- **Microsoft Power BI Desktop for Business Intelligence** (Udemy)
- **SQL for Beginners & Database Design** (Udemy)
- **Python for Data Science, AI & Development** (Coursera)
- **IELTS Academic:** 7.5 Band Score
