RISHI THAKUR

MIS ANALYST | REPORTING & AUTOMATION

Bengaluru, India • +91 8109830219 • rishi_th219@proton.me • rishi-th219.github.io/portfolio
LinkedIn • GitHub

PROFESSIONAL SUMMARY

MIS Analyst experienced in developing automated reporting systems, multi-source data reconciliation pipelines, and enterprise BI dashboards. Demonstrated history resolving operational discrepancies across public databases, linking biometric attendance logs with State Treasury payroll records, and building recurring MIS reports across 33 districts. Background in M.Tech CSE, GATE CS qualification, Advanced Excel, SQL, and Power BI.

SKILLS

- **Advanced Excel & MIS Reporting:** Advanced Excel (XLOOKUP, INDEX/MATCH, Pivot Tables, Power Pivot, Power Query, What-If Analysis, Conditional Formatting, Automated Templates, Periodic MIS)
- **Databases, Extraction & SQL:** Advanced SQL (MySQL, MariaDB, OracleDB, T-SQL) — Joins, CTEs, Window Functions, Relational Modeling, Data Cleansing, Schema Reconciliation
- **BI Systems & Data Modeling:** Microsoft Power BI (DAX), Star Schema, Dimensional Modeling, Celonis Process Mining, Python (Pandas), Data Audit Procedures, Workflow Automation
- **Communication & Spoken Skills:** Executive Reporting & Presentations, Cross-Departmental Communication, Variance Briefings, Stakeholder Updates, Standard Operating Procedures (SOPs)

WORK EXPERIENCE

Chhattisgarh Infotech Promotion Society (CHiPS) | Raipur, India | 06/2025 – 03/2026
MIS & Data Analyst Intern • Dept. of Health & Family Welfare, Govt. Of Chhattisgarh

- Automated statewide recurring **MIS reporting workflows** across **33 districts**, consolidating attendance and payroll records into structured management packages.
- Engineered an automated **SQL/ETL pipeline** mapping biometric punch IDs to State Treasury payroll records, closing a critical audit gap with **100% data fidelity**.
- Formulated a **3-tier defaulter risk model** in Excel and SQL classifying non-compliant bonded personnel, enabling leadership to initiate targeted recoveries.
- Reconciled disparate backend database schemas across MariaDB, State Treasury, and National Next-Gen e-Hospital systems, harmonizing staff IDs and OPD operational logs.
- Designed an executive 6-page **Power BI reporting suite** with **4-tier drill-down hierarchies** (District → Facility → Designation → Individual) tracking core KPIs.

KEY PROJECTS

Telemetry Monitoring & Service Outage Forecasting • *Operational Telemetry Analytics*
Technologies: Python, PyTorch, Scikit-learn, Random Forest, SMOTE, Tomek Links, Excel

- Built a predictive model forecasting signal degradation from multivariate **spatio-temporal** telemetry, addressing **98%/2% class imbalance** via **SMOTE + Tomek Links**.
- Integrated a **Random Forest policy** evaluating 50 diffusion trajectories, achieving a **97.64% F1-score** to proactively prevent operational bottlenecks.

AI vs. Human Text Classification Pipeline • *Applied NLP & Analytics*
Technologies: Python, BERT, XGBoost, Bi-LSTM, Transformers, 1D-CNN, Scikit-learn

- Extracted 768-dim **BERT contextual embeddings** paired with **XGBoost** and benchmarked against deep neural baselines.
- Applied early stopping and learning rate decay, achieving **99% Precision** and **98% Recall** in synthetic LLM classification and automated verification.

EDUCATION

M.Tech in Computer Science & Engineering | IIIT Naya Raipur (CGPA: 7.90) | 08/2024 – 07/2026
B.Tech in Computer Science | Amity University Chhattisgarh (CGPA: 7.71) | 08/2019 – 06/2023

CERTIFICATIONS & KEY QUALIFICATIONS

- **Qualified GATE Computer Science (CS)**, 2024
- **Microsoft Power BI** (Udemy)
- **SQL & Database Design** (Udemy)
- **Python for Data Science & AI** (Coursera)
- **Celonis Process Mining Foundations** (Credly)
- **IELTS Academic:** 7.5 Band Score
