RISHI THAKUR

MIS ANALYST | REPORTING & AUTOMATION

Bengaluru, India • +91 8109830219 • rishi_th219@proton.me • rishi-th219.github.io/portfolio
LinkedIn • GitHub

PROFESSIONAL SUMMARY

Detail-oriented MIS Analyst experienced in developing automated reporting systems, multi-source data reconciliation pipelines, and enterprise BI dashboards. Proven background resolving operational discrepancies across public databases, linking biometric attendance logs with State Treasury payroll records, and building recurring MIS reports across 33 districts. Backed by M.Tech CSE, GATE CS qualification, Advanced Excel, SQL, and Power BI.

SKILLS

- **Advanced Excel & MIS Reporting:** Advanced Excel (XLOOKUP, INDEX/MATCH, Dynamic Arrays, Pivot Tables, Power Pivot, Power Query, What-If Analysis, Conditional Formatting, Data Validation, Automated Templates, Periodic MIS)
- **Databases, Extraction & SQL:** Advanced SQL (MySQL, MariaDB, OracleDB, T-SQL) — Joins, CTEs, Window Functions, Relational Modeling, Data Cleansing, Schema Reconciliation
- **BI, AI Tools & Modeling:** Microsoft Power BI (DAX), Claude Code, Google Antigravity (AI-Assisted Formula Generation), Star Schema, Celonis Process Mining, Python
- **Communication & Spoken Skills:** Executive Reporting & Presentations, Cross-Departmental Communication, Variance Briefings, Stakeholder Updates, Standard Operating Procedures (SOPs)

WORK EXPERIENCE

Chhattisgarh Infotech Promotion Society (CHiPS) | Raipur, India | 06/2025 – 03/2026
MIS & Data Analyst Intern • Dept. of Health & Family Welfare, Govt. Of Chhattisgarh

- Automated statewide recurring **MIS reporting workflows** across **33 districts**, consolidating attendance and payroll records into structured management packages.
- Engineered an automated **SQL/ETL reconciliation pipeline** mapping AEBAS biometric punch IDs to State Treasury payroll records, closing a critical audit gap with **100% data fidelity**.
- Formulated a **3-tier defaulter risk model** in Excel and SQL classifying non-compliant bonded personnel, enabling leadership to initiate targeted recoveries.
- Reconciled disparate backend database schemas across MariaDB, State Treasury, and National Next-Gen e-Hospital systems, harmonizing staff IDs and OPD operational logs.
- Designed an executive 6-page **Power BI reporting suite** with **4-tier drill-down hierarchies** (District → Facility → Designation → Individual) tracking core KPIs.

KEY PROJECTS

Proactive Risk Prediction & AI Decision Engine • *Predictive Analytics & Telemetry*
Technologies: Python, PyTorch, Scikit-learn, Random Forest, SMOTE, Tomek Links, Excel

- Built an automated predictive decision model forecasting signal degradation from multivariate **spatio-temporal** telemetry, addressing **98%/2% class imbalance** via **SMOTE + Tomek Links**.
- Integrated an ensemble **Random Forest policy** evaluating 50 diffusion trajectories, achieving a **97.64% F1-score** to proactively prevent operational bottlenecks.

AI vs. Human Text Classification Pipeline • *Applied NLP & Analytics*
Technologies: Python, BERT, XGBoost, Bi-LSTM, Transformers, 1D-CNN, Scikit-learn

- Engineered dual classification architectures extracting 768-dim **BERT contextual embeddings** paired with **XGBoost** and benchmarked against deep neural baselines.
- Applied early stopping and learning rate decay, achieving **99% Precision** and **98% Recall** in synthetic LLM classification and automated verification.

EDUCATION

M.Tech in Computer Science & Engineering | IIIT Naya Raipur (CGPA: 7.90) | 08/2024 – 07/2026
B.Tech in Computer Science | Amity University Chhattisgarh (CGPA: 7.71) | 08/2019 – 06/2023

CERTIFICATIONS & KEY QUALIFICATIONS

- **Qualified GATE Computer Science (CS)**, 2024
- **Microsoft Power BI** (Udemy)
- **SQL & Database Design** (Udemy)
- **Python for Data Science & AI** (Coursera)
- **Celonis Process Mining Foundations** (Credly)
- **IELTS Academic:** 7.5 Band Score
