RISHI THAKUR

POWER BI DATA ANALYST

Bengaluru, India • +91 8109830219 • rishi_th219@proton.me • rishi-th219.github.io/portfolio
LinkedIn • GitHub

PROFESSIONAL SUMMARY

Power BI Developer and Data Analyst experienced in designing enterprise reporting solutions, dimensional models, and automated data pipelines. Demonstrated history architecting Power BI reporting suites across 33 districts, establishing DAX drill-down hierarchies, and reconciling multi-source datasets across MariaDB and OracleDB. Background in M.Tech CSE, GATE CS qualification, DAX, and Power Query.

SKILLS

- **Business Intelligence & Reporting:** Microsoft Power BI (Desktop & Service), DAX (Time Intelligence, CALCULATE), Power Query M, Executive Dashboards, Drill-Through, KPI Cards, Row-Level Security (RLS)
- **Data Modeling & Warehousing:** Star Schema, Dimensional Modeling, Relationship Cardinality, Data Cleansing, Multi-Source ETL, Schema Reconciliation, Inventory Analytics (ABC/VED)
- **Database & Advanced SQL:** Advanced SQL (Joins, Window Functions, CTEs, Subqueries), MySQL, MariaDB, OracleDB, Query Optimization, View Creation, Advanced Excel, Python
- **Communication & Spoken Skills:** Executive Dashboard Walkthroughs, Cross-Departmental Reporting, Visual Data Storytelling, Requirements Gathering, KPI Alignment

WORK EXPERIENCE

Chhattisgarh Infotech Promotion Society (CHiPS) | Raipur, India | 06/2025 – 03/2026
Power BI Developer & Data Analyst Intern • Dept. of Health & Family Welfare, Govt. Of Chhattisgarh

- Designed and deployed an enterprise 6-page **Power BI dashboard** tracking attendance metrics across **33 districts**, establishing a **4-tier drill-down hierarchy** (District → Facility → Designation → Individual).
- Authored **DAX measures** (Time-Intelligence, CALCULATE, Dynamic Filtering) computing key KPIs including average working hours, staff counts, and absenteeism rates.
- Engineered **SQL/ETL pipelines** in MariaDB to clean and transform raw biometric attendance punch records, eliminating duplicate designations and naming discrepancies.
- Developed an automated pipeline linking biometric IDs to State Treasury payroll codes, uncovering compliance leakage across bonded medical officers.
- Integrated multi-departmental data streams (AEBAS biometric logs, Treasury payroll, Next-Gen e-Hospital records) into a dimensional model with **100% data fidelity**.

KEY PROJECTS

5G Network Telemetry & Quality Prediction • *Telemetry Analytics & Performance Modeling*
Technologies: Python, PyTorch, Scikit-learn, Random Forest, SMOTE, Power BI

- Built a forecasting pipeline analyzing multivariate **spatio-temporal** telemetry, addressing **98%/2% class imbalance** via **SMOTE + Tomek Links**.
- Trained an ensemble **Random Forest classifier** on 50 diffusion paths, achieving a **97.64% F1-score** in predicting connection failures.

AI vs. Human Text Classification Pipeline • *Applied NLP & Analytics*
Technologies: Python, BERT, XGBoost, Transformers, Power BI Dashboards

- Engineered dual NLP evaluation pipelines extracting 768-dim **BERT contextual embeddings** paired with **XGBoost** and deep neural network baselines.
- Attained **99% Precision** and **98% Recall** on synthetic text detection; compiled model metrics and confusion matrices into interactive analytical reports.

EDUCATION

M.Tech in Computer Science & Engineering | IIIT Naya Raipur (CGPA: 7.90) | 08/2024 – 07/2026
B.Tech in Computer Science | Amity University Chhattisgarh (CGPA: 7.71) | 08/2019 – 06/2023

CERTIFICATIONS & KEY QUALIFICATIONS

- **Microsoft Power BI** (Udemy)
- **SQL & Database Design** (Udemy)
- **Celonis Process Mining Foundations** (Credly)
- **Python for Data Science & AI** (Coursera)
- **Qualified GATE Computer Science (CS)**, 2024
- **IELTS Academic:** 7.5 Band Score
