RISHI THAKUR

Data Analyst | Business Intelligence & Analytics Engineering

Bengaluru, India • +91 8109830219 • rishi_th219@proton.me • linkedin.com/in/rishi-thakur-b665a4298 • github.com/rishi-th219

PROFESSIONAL SUMMARY

Results-oriented Data Analyst experienced in developing automated data pipelines, dimensional data models, Advanced Excel analytical workbooks, and enterprise Power BI dashboards from end to end. Proven background resolving multi-source data discrepancies across state-scale public healthcare databases, authoring SQL/ETL identity-resolution workflows, and translating complex operational KPIs into high-impact analytical tools that drive executive decision-making. Backed by M.Tech (CSE), GATE (CS) qualification, and advanced proficiency in SQL, Power BI, Advanced Excel (Power Query, Pivot Tables, Scenario Modeling), and Python.

TECHNICAL SKILLS

- **Advanced Excel & BI:** Advanced Excel (XLOOKUP, INDEX/MATCH, Dynamic Arrays, Complex Nested Formulas, Pivot Tables, Power Pivot, Data Modeling, Power Query / M ETL, What-If Scenario Analysis, VBA / Macros, Executive KPI Dashboards, Conditional Formatting), Microsoft Power BI, DAX (Measures, Time Intelligence), Oracle Analytics Cloud (OAC), KPI Scorecards
- **Databases & Querying:** Advanced SQL (T-SQL, MySQL, MariaDB, OracleDB) — Complex Multi-Table Joins, CTEs, Window Functions (ROW_NUMBER, RANK, LEAD/LAG), Subqueries, Aggregations, Relational Database Design, Query Execution Plan Tuning
- **Data Modeling & ETL:** Dimensional Modeling (Kimball Star Schema), Multi-Source ETL Pipelines, Identity Resolution Algorithms, Heterogeneous Schema Reconciliation, Data Validation & Cleansing, Data Integrity Controls
- **Analytics & Programming:** Python (Pandas, NumPy, Scikit-learn), Inventory Analysis (ABC/VED/SDE), Metric & Dimension Definition, Root Cause Analysis, Trend & Variance Analysis, UAT Protocols, Technical Documentation

PROFESSIONAL EXPERIENCE

Data Analyst & BI Developer Intern | Chhattisgarh Infotech Promotion Society (CHiPS) **06/2025 – 03/2026**

Dept. of Health & Family Welfare, Govt. of Chhattisgarh *Raipur, India*

- **Statewide BI Dashboard Architecture:** Architected an executive 6-page statewide Power BI attendance dashboard across 33 districts, structuring 4-tier top-down drill-downs (District → Facility → Designation → Employee) with custom DAX measures tracking avg. work hours, attendance %, and missed logins.
- **Advanced Excel Auditing & Operational Analysis:** Developed multi-tab analytical Excel workbooks powered by Power Query, dynamic arrays (XLOOKUP, INDEX/MATCH), and Power Pivot data models to cross-validate district-level biometric logs with Treasury payroll files, enabling rapid ad-hoc scenario modeling and executive exception tracking.
- **Automated SQL/ETL Identity Resolution:** Engineered an automated SQL/ETL pipeline mapping AEBAS biometric attendance IDs to State Treasury payroll records, closing a critical cross-departmental tracking gap and categorizing bonded doctors into 3 actionable compliance tiers.
- **Cross-Department Schema Reconciliation:** Integrated multi-source data across MariaDB, State Treasury, and National NextGen e-Hospital OPD systems, collaborating with NIC engineers to reconcile heterogeneous modular schemas into a unified reporting layer.
- **Supply Chain & Inventory Analytics:** Conducted ABC, VED, and SDE inventory categorization analysis on essential drug catalogs in OracleDB, deploying interactive dashboards to Oracle Analytics Cloud (OAC) to guide statewide procurement decisions across 5 sub-departments.

KEY PROJECTS

Proactive 5G Handover Prediction (Diffusion Models) | *Python, PyTorch, GRU, DDPM, Scikit-learn* **M.Tech Thesis — Predictive Analytics**

- Developed a GRU-conditioned diffusion model (DDPM/DDIM) to forecast radio signal degradation from multivariate spatiotemporal telemetry; addressed 98:2 class imbalance via **SMOTE + Tomek Links** and attained a **97.64% F1-score** on failure classification.

AI vs. Human Text Classification Pipeline | *Python, BERT, XGBoost, Bi-LSTM, Transformers* **Applied Machine Learning & NLP**

- Designed and benchmarked dual NLP pipelines (BERT + XGBoost and hybrid Bi-LSTM/CNN/Transformer architecture) on large corpora, optimizing decision boundaries to achieve **99% Precision** and **98% Recall**.

EDUCATION

M.Tech in Computer Science & Engineering | IIIT Naya Raipur (**CGPA: 7.90**) **08/2024 – 07/2026**

B.Tech in Computer Science & Engineering | Amity University Chhattisgarh (**CGPA: 7.71**) **08/2019 – 06/2023**

CERTIFICATIONS & KEY QUALIFICATIONS

- **Microsoft Power BI Desktop for Business Intelligence (Udemy)** | **Qualified GATE (CS), 2024**
- **SQL for Beginners & Database Design (Udemy)** | **IELTS Academic: 7.5 Band Score**
- **Python for Data Science, AI & Development (Coursera)** | **Machine Learning (NPTEL)**
